

D₂ INTERIORS

COMPANY PROFILE

Connecting people with their style

ABOUT COMPANY

Since its beginning in 2014, D2 Interiors has been recognised for creating aesthetically pleasing commercial, institutional, and residential projects. Our extreme simplicity, elegance, and minimalism have helped us quickly become a respected brand in the interior design and home decoration. Our goal is to create and put into place large houses with an air of sophistication and heritage. With a refined eye for aesthetics, a preference for simplicity, and an awareness that form should always follow function, we strive to create minimalistic, sophisticated designs.

For us, design is about providing form for experiences, About making them more satisfying and modern while retaining their classic qualities. We think that places should make us happy by appealing to our senses, evoking our emotions, and meeting the needs for which they were created. Our turnkey interior design team will make sure the design and construction goes off without a hitch, so our clients may continue living their normal lives. D2 Interiors fabrication equipment is state-of-the-art, so we can guarantee our clients a rapid production rate, prompt deliveries, and reasonable prices for our interior design services.

FOUNDER

Er. Dilip Prajapati has worked in the fields of interior design, interior construction, and customer relations for over a decade. He manages projects and provides support to clients on a regular basis in addition to developing solutions for them. Our firm's relentless quest of excellence has advanced under his capable guidance. He is the driving force behind D2 Interior, thanks to his extensive background of interior designing activities and in-depth understanding of customers. It is an understatement to say that he is renowned for his creativity and commitment to the highest standards of perfection, has continued to inspire and influence the design.

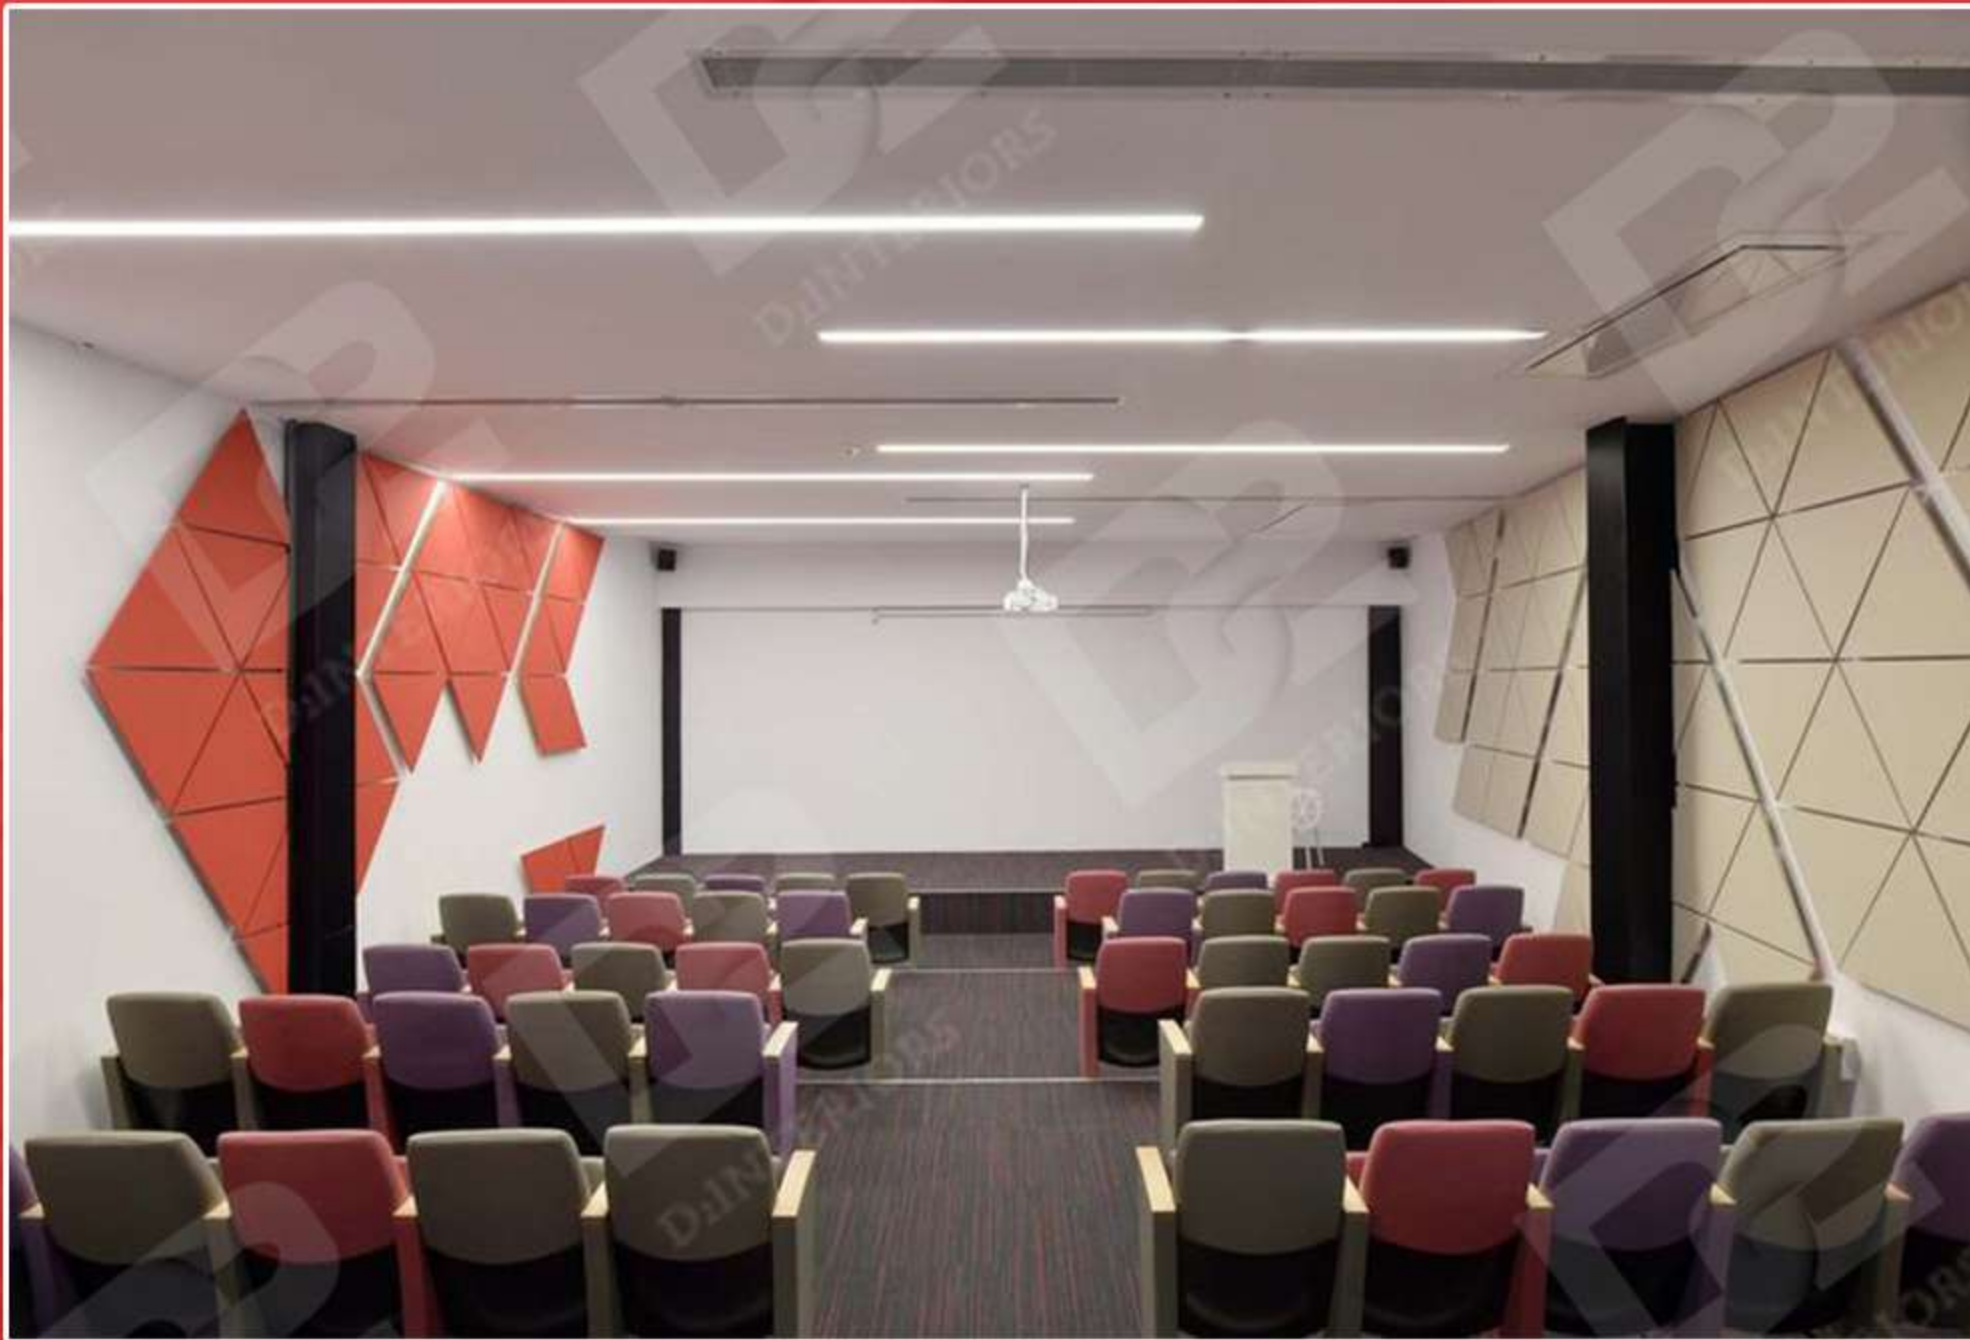

CO-FOUNDER

Ar. Lokesh Chaturvedi is a well known architect, working since 2015. He has a strong interest in urban & rural regeneration. He wants to make the environment more sustainable & socially responsible. He is famous for his diversity in designing the place that will be suitable for every person & society. In his design, he uses the best concrete & building materials & also his design is so much well planned that natural light will always fall in the interior. As an expert, he always focuses on delivering the project on time & within the decided budget. He designs and plans each & every project in a streamlined, efficient, and cost-effective manner & involves creating three-dimensional urban forms and space to enhance the experience of towns and cities.
